OBJECTIVE

Aspiring Data Analyst with hands-on experience in Python, SQL, Excel, Power BI, and data visualization. Seeking an opportunity to leverage analytical and problem-solving skills to deliver actionable insights and contribute to organizational success.

EDUCATION

Bachelor of Engineering in Computer Engineering | CGPA - 7.5

📅 Aug 2024 - Jun 2027

Savitribai Phule Pune University 📍 Pune, Maharashtra

Diploma in Information Technology | Percent - 80.50

📅 Aug 2020 - May 2023

Amrutvahini College of Engineering 📍 Sangamner, Maharashtra

SKILLS

Technical: Python, SQL, Excel, Power BI, Pandas, NumPy, Matplotlib, Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization. Tools: Jupyter Notebook, MySQL, Power BI Desktop, Git, GitHub, VS Code, Microsoft Excel, Tableau (Basic)

CERTIFICATIONS AND TRAINING

Data Analytics Job Simulation – Issued by **Deloitte Australia (Forage)**, 2026.

Data Analytics Training Certification – Issued by **CWH Solution**, 2026.

WORK EXPERIENCE

Data Analyst Intern

📅 Jun 2026 - Aug 2026

Innomatics Research Lab 📍 Pune, Maharashtra

- Worked on end-to-end data analytics projects involving data cleaning, EDA, SQL, Python, Excel, and Power BI dashboards.

PROJECT EXPERIENCE

ESPN Cricket Analytics Dashboard 🔗

- Collected, cleaned, and analyzed ESPN Cricinfo data to evaluate batting, bowling, and fielding performance.
- Used Power BI, Power Query, DAX, Excel, and Python for web scraping and data analysis.
- Developed an interactive cricket analytics dashboard with KPIs, charts, and slicers for player performance insights.

Panic Attacks Data Analysis 🔗

- Cleaned and analyzed panic attack data using SQL and Snowflake.
- Built an interactive dashboard using Power BI, Power Query, and DAX.
- Visualized symptoms, panic scores, and patient trends for actionable insights.

Churn Analysis and Customer Intelligence 🔗

- Engineered an end-to-end churn analytics pipeline by integrating OTT subscriber data and tracking 20+ KPIs.
- Analyzed churn trends, MRR leakage, and CLTV erosion across customer segments.
- Delivered retention insights to reduce churn and improve customer retention.
